Provide your students with an introduction to art that is inclusive and emphasizes critical thinking!

Henry Sayre's art appreciation text, *The World of Art*, is an amazing introduction to the world of art. Students with little background in the arts routinely reach out to Henry to share how the text has influenced their lives. This is so meaningful because Henry's inspiration for *A World of Art* was his own students. His students wanted to see themselves reflected in their textbook. Henry decided to write an art appreciation textbook that represented all artists, not just the Western canon found at that time in the other texts. He also created a text that fostered critical thinking through looking at, talking about, and questioning works of art for his students.

The result was *A World of Art* and the new seventh edition continues to build on those two themes- coverage of contemporary global art and a strong critical thinking framework throughout the text. This edition includes new ways for students to experience art with the new MyArtsLab, which includes ART 21 videos, Discovering Art simulations, Closer Look tours, and an eText of *Writing about Art*, also by Henry Sayre.

- **Engage Students** — The new MyArtsLab Challenge is a fresh take on assessment offering a "game-like" atmosphere for students to master chapter material. Upon successful completion of each level, students unlock works of art to create their own personal gallery to share with their peers.

Highway robbery

Very expensive book required for a college class. Fell apart within seven days. No chance to resell it. Save your money and buy the download.

Next Best Thing

By A Customer

If Jantzen's view of art history seems lifeless and distant, Henry Sayre has something to say to you. It's the best survey I've seen in terms of making art accessible and demonstrating a continuing tradition. The CD-ROM is an excellent bonus, especially for readers who have never seen an artist at work. Ever wonder how a print is made? There's a demonstration.

Poor Quality

By Rob

I purchased this book new and have only used it a few times and the pages are coming loose from the bindings. Poor quality for how much you pay for the book, I would not expect it to be falling apart. So not only do I get to pay an outrageous price for the book in addition it will have no resale value for me to get some of my money back out of a book I will never again use.
