Golf Romeo Echo Alpha Tango

ALPHA is an alphabet book that presents each of the letters of the alphabet according to the NATO phonetic alphabet, e.g. alpha (a), bravo (b), charlie (c), etc. Each word is accompanied by an illustration of that word on the opposite page. At the end of the book there is a short explanation of what the NATO phonetic alphabet is and why it is used and who uses it. As an alphabet book, I really like this book because it presents different words for each letter of the alphabet that are very non-traditional to most alphabet books. In addition, as a child I would have enjoyed this book because it would have helped me understand what people were talking about when I heard them use terms such as "victor" "India" and "papa" in movies and tv. I'm not sure how the illustrations were made, but I like the style. Overall, ALPHA is a great little alphabet book that helps educate on several different levels. Highly recommended.

Not as good as I expected

By Tara Martin

I thought this would be a fun way to learn some new words, but I end up having to explain each page in detail and my son loses interest. The pictures' relation to the words are not always obvious.

The pictures are great. The letters are large so it is easy to use to teach the alphabet but it is not a fun book to read. Our 1.5yr old gets bored with it quickly
