Scary, violent book! The Animals try to kill the little chameleon!

By Tracey

Yes the pictures are really very nice and that is why I got this book. But the story is just horrible. This cute little chameleon starts out painting his hippo friend pink so they match ( he was by a pink flower at the time). Next he makes lots of paints and all the animals come and get painted. This makes a lovely picture in a two page spread but the Lion gets mad because he can no longer recognize his dinner. Other animals also get mad about being painted. So I am thinking...TAKE A BATH!!! but instead all the animals chase the chameleon to the edge of a cliff in anger! The exact words are " the angry animals chased Chameleon to the edge of a cliff. Trembling,Chameleon closed his eyes, turned the color of the rocks, and waited." I was horrified....what kind of kids book has the main characters friends try to run him off a cliff to his doom???? This is not a good children's book!!! Who ever publishes stuff like this for children?? Did they even read until the end or just look at the pictures? Luckily it rains and the animals get washed off so they don't kill the chameleon. But really, can he ever trust any of them again?? He probably had to move.

Abusive book

By beachmomma

This book has some great illustrations but the story it just horrible. You could not read this to a child. The chameleon's friends get angry and try to run him off a cliff and kill him. Who let this be published??? Not someone with small children.

Cute

I bought it to use in my elementary art school class. I worked great with teaching second graders about colors and color mixing.
