If you've read them all, you probably don't need this one.

By Jeremy Canaday

I ordered this book hoping for a detailed insight on light and shade along with a little history and information regarding chiaroscuro. While it is a good book if this is the 1st art book you've ever read and does have quite a few inspiring images, it is absolutely nothing detailed for light and shadow that you probably couldn't find on Wikipedia. I'd say about 75-80% of this book is filled with images and about 25% text. It'll take less than 30 minutes to read every page word for word.
