"Cahn's Exploring Philosophy is really fantastic because it takes the best of traditional philosophy and pairs it with modern, up-to-date philosophy. It has finally put women philosophers on an equal footing with the men. By using this book, an introductory course in philosophy can now reflect the contributions of women philosophers. It will be used from now on in my intro courses!"--Clint Tibbs, Delta State University

This is the first philosophy textbook I've ever bought. I love it. The readings are simple and so easy to follow. This is extremely beneficial for a topic like philosophy, which can be very confusing to understand. I appreciate the simplicity and flow of the writing in this book. I would recommend to anyone who is in an introductory course to philosophy, or even anyone who's beginning to look into philosophy!
