A Wonderful Book for the Beginner.

By jerake

I found this book to be extremely informative, even though it may be missing many artists and albums in its price guide. The information pertaining to what to look for and what **not** to look for helped me immensely when I decided that I wanted to become a collector of vinyl.

It's poor information and missing many important singers.

By A Customer

I am very surprised about this issue missing many important singers and has a lot of wrong information. The 4th addition is much much better than this issue.

Good book but outdated, new price guides available

By BotaYota

I purchased this book back in 1997, at that time it was up to date, just found my old dog-eared copy, and it is still an enjoyable reference guide, but there are newer price guides available now that I would spend my money on.
