One of the best I've read so far!

By Mary A. Kent

I loved this book! It answered almost all my questions about writing and publishing. I know it has saved me time and money already. If you are an aspiring author, this book is a great guide. She walks you through everything- brainstorming, writing, publishing, marketing, social media, the pitfalls, royalties, etc. It's honest and to the point. Thank-you for writing this book!

Recommend to those considering writing as a career. A great guide to have!

By Joy

I have read a few books (as well as several blogs and articles) about writing and publishing and I have to say this is probably the best one I've come across.

Some of the winning aspects of this how to book is how clear, concise and to the point it is. It doesn't overload you with fluff, random stories of self-importance, pages of links that you could have just googled versus paying for the book, or go on and on about how fabulous their own creative process is.

She gives basic real life examples, her advice is on point and blunt, and I'm grateful she took the time to create something that has answered so many questions and even given me a bit of a boost and inspiration to continue pursuing my own writing dreams.

Definitely a book I'll be re-reading every now and again
