MEMORIES OF HEAVEN: CHILDREN'S ASTOUNDING RECOLLECTIONS OF THE TIME BEFORE THEY CAME TO EARTH BY WAYNE DYER, DEE GARNES, DIANNA HICKS-GAR PDF

Nineteenth-century British poet William Wordsworth expressed the idea that we gradually lose our intimate knowledge of heaven as we grow up, observing that “our birth is but a sleep and a forgetting” of our previous heavenly existence.

Dr. Wayne W. Dyer and co-author Dee Garnes had often talked about how the ones who know the most about God are those who have just recently been wrapped in the arms of the Divine, our infants and toddlers. In fact, Dee had an interaction with her own young son that convinced her of this. Curious about this phenomenon, Wayne and Dee decided to issue an invitation to parents all over the world to share their experiences. The overwhelming response they received prompted them to put together this book, which includes the most interesting and illuminating of these stories in which very young children speak about their remembrances before they were born.

It seems that infants and toddlers often arrive here with memories of their lifetimes in the spirit world and frequently provide evidence of this to their immediate families. They tell of dialogues with God, give evidence that they themselves had a hand in picking their own parents, speak about long-deceased family members they knew while in the dimension of Spirit, verify past-life recollections, and speak eloquently and accurately of a kind of Divine love that exists beyond this physical realm—and even of times when telepathic communication took place, as well as the ability to decide just when they would come here to Earth.

This fascinating book encourages parents and grandparents to take a much more active role in communicating with their new arrivals . . . and to realize that there is far more to this earthly experience than what we perceive with our five senses.

Book Review: This book is a joyous celebration of the innocence and mystery of life.

Memories of Heaven

Children's Astounding Recollections of the Time Before They Came to Earth

By Dr. Wayne Dyer, Dianna (Dee) Hicks-Garnes

Readers familiar with Dr. Wayne Dyer know he is laughing joyously from Heaven as his final book is released in the world; this book about Heaven. He loved hearing stories from children especially when they were spiritually motivated. This book is no different.

His good friend and assistant Dee told him about a moment with her son regarding his memory of God and what came before he was born. That singular moment led to this compilation of stories of children from all over the world as their parents/grandparents recall similar moments of child-inspired insight.

This book is a joyous celebration of the innocence and mystery of life. If you as a reader are looking for documented-factually tested scientific proof of an existence beyond this life, you will have to look elsewhere. If you already believe that there is existence prior and after this life, this book is a wonderful collection from people all over the world sharing their experiences.

The stories are arranged in chapters such as *Memories of Heaven*, *Memories of Choosing Parents*, *Memories of Family Reincarnations and Role Reversals*, *Memories of Spiritual Connections to Our Source*, *Mystical and Precognitive Wisdom*, *Invisible Friends and Spiritual Visitations*, and *Angel Stories*.

At the beginning of each chapter Wayne writes an introduction and anecdote that relates to that chapter. To read of the sincerity of these children is a precious gift for those needing to hear these heartfelt stories. It is a way to lighten the hearts of adults and give them that pause to feel the love and light from a child's heart.

Wayne urges all adults to look at children as “spiritual beings” not merely inexperienced humans. No one can claim to have more wisdom simply because of a chronological age and that “wizened” adults can learn much from the innocence of unfiltered youth. If everyone were to reclaim their non-judgmental innocence that we had as children and to return to the loving light that is childhood this world would be better for us all. Sometimes the immaturity of youth teaches so much more than the hardness of age.

On August 30, 2015 Dr. Wayne Dyer had a heart attack during his sleep. His legacy lives on by all the teachings and ponderings he has left for the world to read. To learn more about this magnificent man, please visit his website at: <http://www.drwaynedyer.com/>

ENDURING AND ABSOLUTELY TIMELESS

By Robert Steven Thomas

I truly miss the late Wayne Dyer. The world has lost a remarkable soul and teacher. I read his first book ("Your Erroneous Zones") as a young man in the seventies and can, with complete conviction, say it helped me mature faster and become a better person. I also own and have read almost all of the books he has published after his first. Throughout his early years Dyer was a successful psychologist whose main emphasis included getting people to understand that one of life's greatest challenges is to personally accept responsibility for your circumstance in life. (if your life is gonna get better ... it's up to you to change ... and you need to own the problem's causes yourself!) During his last two decades Dyer studied the world's greatest philosophers ... and in the process became one himself. This book is consistent with Dyer's thinking, but deals with an entirely different subject ... the realistic potential of a sentient afterlife through the lucid, inner-eyes of many children's earliest memories. In his uniquely characteristic style Dyer has approached this subject through modern logic, reasoning and has skipped most of the metaphysical hyperbole. This book and its thinking is a fitting conclusion for one of the world's great masters. The collaboration with Dee Garnes is also very helpful.

If you felt the need to read the reviews you need to read this book.

I couldn't avoid having high expectations from this book. I will say that it has met my expectations, and then some. As I read it I felt transported to another place, another time. I started out skeptical of Wayne Dyer but, over time he won me over. I will miss him.

Combine the ages of these children, the geographic dispersion of their locations, the similarities in their stories and it's good evidence.
