Book 5 in the Award-Winning Mind Sweeper Series

How many supernaturals does it take to screw in a lightbulb? For this particular case, way more than Kyle McKinley has backing her up.

When she stumbles upon a dark museum, missing artwork, and a dead security guard, Kyle and her team are thrust into a new mystery. One involving demons. But not your run of the mill demons—realm demons. Tougher, scarier, and banned from earth, they are escaping from the realm and wreaking havoc in Cleveland, Ohio, of all places.

Now the Feds have shown up, and Kyle has to deal with the one person she prayed she would never see again. Dalton. How can she keep the truth of their past from him without jeopardizing the case? Especially when the Key of Knowledge is part of the mystery. The same Key that almost cost Dalton his sanity and is now threatening hers. Kyle is just starting to get her life back together again with Griffin at her side. And now the Fates are forcing her to choose. But when a demon apocalypse looms on the horizon, her only choice is to embrace the Key to save the world, regardless of what it might cost her.

Tying an unhappy bow around book 5

By The Truth

This series really started so strong! I loved the cast of characters, even as the collection grew. I felt that the larger mystery tied in well with the paranormal genre. Book 3 was a let down for me - I never really bought into the whole Griffin thing - A guy with the nose like crystal ball who is never around when it's needed for something other than sniffing Kyle. I also started to really dislike the author's use of "OMG! how did you sneak up right behind my when I was divulging a critical plot element?" This happens like 5 times in the series and it felt way to Nickelodeon. Lastly I like a little darkness in my story - this one tied up way to hunky dory for my taste.

When will you fall for me?

By Amazon Customer

I love this series from A E Jones: plenty of action, great support characters with good repartee and a bit of loving that nearly made it to love triangle status, but tactfully escaped by the skin of the teeth. Excellent.

The first half of the series was slow but managed to pick up pace just before it it took a flying leap to the 'finish later ' shelf.

The story continues on with the tumultuous life of Kyle and, which ever way you see it, could be considered good or bad. Nevertheless the story soldiers on with epiphanies and new resolutions.

What makes this novel stand out for me, aside from the excellent storytelling, is the fine grasp of both hip colloquialisms and flowing dialogue. The ultimate appeal and success, is that by the end the author injects both new characters and new material that causes the reader want to keep going and launch into the next book.

And wait for it no cliffhanger! For solid lover's of Chloe Neill, Karen Chance, Laurell K Hamilton and Charlaine Harris.

Sex quotient: absolutely no problem with commuter worthiness.

This series just keeps getting better

By Bryn Wills

That was fun! I just finished Sentinel Lost and loved it. Want more, of course, but am very satisfied with how this particular book played out in the end. Love the characters, the "didn't see that coming..nor that...not even that" aspects, and especially loved A.E. Jones' writing. Don't want to give ANYTHING away, so I'm ending my review right here... other than to highly recommend your reading this book! Enjoy!
