this is a revised edition

By Ljo

the book is great Suzuki is great, however this is a revised edition and they don't say that. I was using this for a competition where my son had to give a 2nd copy of the song to the judges and there was one rest in the song that was not in his original edition.

I don't think it ended up mattering but it would have been nice to know there was different editions. all in all this probably doesn't affect most people so it's not such a big deal.
live the songs and the book.
