This is Part 1 of a two-book set, within the Love Hashtagged Series. While it has its own ending, the story continues in *The #5Star Liaison*, available late 2016/early 2017

Jaycie Wharry is one of gaming's most infamous reviewers—under the intentionally vague pseudonym J-Dub. Most of her friends didn't even know what she really did for a living. Then again, one in particular was missing a few solder points in his neural circuits, and she traded that life in as fast as she could when his infatuation with her translated into a threat to her safety. Her new roommate, Ethan, is just supposed to be a firewall against the past, but they're heating up the wires faster than an X-box on a summer's day.

When one of Ethan's friends leaks Jaycie's reviewing identity to the entire internet, accusing her of sleeping with developers in exchange for her 5-star approval, both of their careers are threatened. Since slapping a gag-order on the internet to protect their jobs, privacy, and safety isn't an option, Jaycie and Ethan will need to archive all their preconceived notions, or watch their future—with each other and in general—crash in an unrecoverable way.

Warning: Includes a confident gamer-guy who knows how to use a joystick, and a game reviewer who appreciates co-op mode as much as solo-play, especially when her partner knows which controller buttons to push.

Awesome story I can fall into!!!!

By Stephanie Pittser

I've come to realize that I prefer to read a romance that switches back and forth between the male and female point of view and this story just cements that. It's wonderful knowing what both people are thinking instead of being in the dark on half of it all. (another thing I love is I've also got a Mario ringtone on my phone and that was before I ever read this.) This story is so life like its almost scary. The arguing, the admitting you were wrong and making up for it is so true about real adult life and I can't get enough of how awesomely this

is written. I loved everything about this book and I don't believe that there is anything that could be complained about.

Great characters and a fresh storyline

By Charity

Jace and Ethan have instant chemistry. Both are reluctant to taint the waters of being roommates with an attempt at more. Jace struggles with trusting her instincts and overthinking. Together they must fight for their livelihoods and reputations. Great characters and a fresh storyline. Can't wait to see what else this series has to offer.
