THE CRYSTAL TAROT: AN INSPIRATIONAL BOOK AND FULL DECK OF 78 TAROT CARDS BY PHILIP PERMUTT PDF

Crystals, like tarot cards, have for centuries been used for healing and divination. In this boxed set, each card image shows a crystal, along with a traditional tarot image, which enhances its meaning. The High Priestess card, for instance, shows the lapis lazuli crystal, which links with her tarot meaning of spiritual truth and intuition—she guides us to listen to the voice of our true selves. Accompanied by a book by author and crystal healer Philip Permutt showing how to lay out the cards for a reading, tarot aficionados will fall in love with the beguiling images, while novice readers will find it an irresistible first deck. The specially commissioned illustrations are by Emma Garner, artist of the bestselling Art of Tarot. They beautifully blend traditional tarot imagery with crystals: The Sun card has a sun of topaz, and the World card shows the traditional world dancer holding wands of quartz.

The Happy Tarot. Crystal lovers & playful readers will enjoy it. Helpful for Positive Manifestations.

By Abella Arthur

FIRST IMPRESSIONS

As soon as I saw the box, I felt blessed.

I thought to myself, "Wow, How can I get such a set of tarot cards for so little?" When I opened up the box, I found the tarot cards surprisingly larger than expected.

SIZE, QUALITY, READING, & ARTISTIC MERIT OF THE CRYSTAL TAROT DECK

I was expecting a pocket sized deck but I'm glad for the larger size. These cards are approximately 5.25 x 3.25 inches.

The card stock is very glossy which makes it easy to shuffle but may also slip out of your hands easily too.

The card stock is also on the flimsy side but this is not a deterrent for me personally. Card stock and thickness are personal preferences. If I were to read with this deck daily and frequently, I would want a thicker card stock; however, for my interest in this deck: Art and the occasional read, it's fine.

Allegorical pictures are only on the 22 major cards. The minors contain pips and decorative elements that makes sense for the suit.

The layout of the symbols, in large part, do not give any meaning though the Cups are arranged in a way that can give some clue

about the card's meaning. For this reason I would not recommend this to novice tarot readers unless they intend upon studying the

Tarot de Marseilles (TdM) or just using the major arcana.

The back of the cards are purple with an inner circle, flower design, and 10 crystals around the flower wheel. Reading reversed, by mixing up your cards, will not work easily with this deck since you may know if the card is reversed before picking it. I guess you could always close your eyes before picking, if you like reading reversed with upside down cards. I personally read reversed with upright cards.

The artwork has a child story-book vibe to it and that helps tell a true tarot story if only using the 22 major cards. I personally like the artwork; however, I strongly believe tarot art is subjective. We all have different aesthetic tastes. There is a lot of green, yellow, and healing colors in this deck, bright yet soft at the same time. The people in the major arcana appear youthful with the Hermit being the oldest looking character. Each card contains a crystal. The deck is border-less so there's a full-bleed. I personally like this as I can sink deeper into the cards.

I did a few reading blind tests (where I knew what the answer to the question was) with my TarotSeek reading method and oddly it worked. However, I got a yes for 5 of Cups because the card is so bright and happy and connected to calcite and yet the traditional Rider-Waite Smith (RWS) version would have been a no. So if you are going with your own, standard interpretations, or methods for the cards, these cards may not be for you. But if you want a happy deck that will help ease your pain, illness, or negativity -- this deck may be for you. And frankly, that's why I bought it -- it's happy and I want more 'happy' in my life!!

I can see how the Crystal Tarot can be a great deck for transforming a bad situation into one that is good and for meditation (it also gives a simple crystal meditation exercise that you can do) so if you have the budget to buy and you like what you read in this review, go for it.

THE COMPANION TAROT BOOK

To the right of the deck, in the kit, is a slim full color glossy booklet with 64 pages. Pages 13 to 64 give the Planet/Sign, Crystal, and Chakra associations for the majors while skipping the planet/sign association for the minors.

It then moves into the interpretation of the card. There are no keywords, descriptions, or reversal interpretations; however, crystal meanings are given for each card.

The booklet is a basic overview of tarot, how to use tarot, and this deck. It seems to indicate that inspiration is drawn from not only the RWS but also the Thoth and TdM decks even though only the RWS is mentioned. For example, the author writes "There are no 'reversed' meanings in the Crystal Tarot. The meaning of the card is often dependent on the cards next to or around it, which can shed further light on the reading. As you look at the card spread and notice the relationships of adjacent cards, you will realize the implications of

each card." This seems to draw on the Thoth tradition and can confuse RWS tarot readers who have certain expectations on how that type of deck operates.

TABLE OF CONTENTS

Introduction 4

Laying of the Cards 8

Care for the Day 9

Past, Present, Future: Three-card Spread 9

Compass Point Spread 11

Hexagon Crystal Spread 11

Gaining Deeper Insight into the Cards 12

The Major Arcana 13

(Note: The Hierophant is titled The High Priest)

The Minor Arcana 36

The Suit of Cups 37

The Suit of Pentacles 44

The Suit of Swords 51

The Suit of Wands 58

After reading through the booklet, I realized that this guide teaches you how to do incredible 'crystal readings' without the tarot cards and I had not known how to do that before!

I'm giving this kit a four because it works for me and I think I 'get' what the creators are trying to achieve; however, for many it's probably more of a three because the publishers didn't get across very well who this deck is for and what it can do and it can do a lot but just not what the typical tarot reader would expect or is seeking!

To also note, Cico Books (the publisher of this set) appear to focus on lighter reading material with superb visuals, gift sets, full color glossy, and coffee table books so that's probably why this set wouldn't appeal to most serious tarot readers unless they can see another application for the kit, like myself.

Eye Opening Oracle deck

By Kindle Customer

I am a practicing psychic and clinical psychologist so everything I read is with that perspective in mind.

I know this is a tarot deck, but the cards are very basic meaning its hard to interpret them without the guidebook. Which brings me to my next point. I viewed this as an oracle deck to begin with so I was not disappointed at all like the other reviewer.

I have many tarot decks and have been reading for over 10 years now. When I viewed the Little white bookthe accompanying guidebook tarot decks have, this one had a very unique perspective. Each card is paired with a crystal and guidance for what the card meaning is. The chakra that is related to it is mentioned as well.

Here is an example.

Card: Moon, Stone: Moonstone, chakra-solar plexus. Then the author, Philip Permut mentions how your intuition may not be on target with this card. Very clever, and insightful I thought. Many times during the full moon, people emotions get the best of them and their judgment and intuition may be off. Most decks claim this card means follow your intuition. But I liked his opposite interpretation as I realized it may just as valid and one that is overlooked for this card meaning/symbolic concept. One way to make your cards more usable is to put keywords on them and not limit yourself to it during a reading but pay attention to the thoughts and feelings that come up while getting the card for the person.

Lastly, the Artwork's warm, gentle and playful pictures should be mentioned. Emma Garner's pictures could be in a child story book. The artwork may be another reason to get the deck. This deck is very child friendly and not all scary.

The Wheel of Fortune has a wheel with a serpent, an Amethyst, (associated stone) and 4 elements in the corners (Fire, Earth, wind and Water) Nice. If you liked the Celtic Messages by Joules Taylor, you will love this deck, very similar style of guidebook and art. I loved both for the reasons stated.

If you need a good starting Tarot deck, I suggest Pamela Coleman's version of the traditional tarot or Oracle Tarot by Lucy Cavendish. Ms. Coleman's deck has much of the traditional imagery with softer coloring. Oracle Tarot has keywords at the bottom and has no court cards but the images explain the meaning of each card brilliantly making it very easy for beginning readers.

Lovely artwork and very simple to use

By Hello Kitty Ellen

I wasn't even looking to buy a 2nd Tarot deck, but when I saw the artwork on this one I really wanted to buy it. Each card is shiny and not too big (which makes them hard to shuffle). The artwork is clean and simple, with nice, bright colors. The type is dark black which makes it easy to read (so many Tarot decks are dark and stormy looking - this one is light and bright!). Since I also like crystals, I was very interested in how each card had a corresponding crystal. The little guidebook also has a photo of the crystal alongside the description for the card. Some of the best, most clear photographs of crystals I have seen published! I don't know how well his explanations of the card meanings correspond to the traditional meanings...to me they are much more straightforward.
