"The Miracle Morning" by Hal Elrod, is a self-help book that explores the reason that some people find success and others don't. This review of Elrod's book breaks down his argument into 9 key takeaways, that allow you to follow his logic and reasoning, so you can determine if his suggestions are worth your time. This review allows you to easily see the core principles of the self-help book and let you decide if you want to pick up the real book or not.

It is incredible that Elrod suggests better sleeping habits and positive thinking will improve your personal development. Being devoted to your improvement is one of the first steps towards lasting change. I liked following Elrod's argument in this review, and highly recommend it to anyone interested in personal improvement.

~~ Leave the 95% behind and join the 5% ~~

By Richard and Liz

Are you one of the 5% or 95%? Do you believe that the way you start your day actually has a profound

impact on your life? Hal Elrod, a survivor of a head on collision with a drunk driver, does. Are you ready to start living your dreams?

In this detailed summary by Eureka Books on the original self-help book, *The Miracle Morning* by Hal Elrod, you will a great synopsis on what is in that book. There are six things Elrod says you should practice each morning: silence, affirmations, visualization, exercise, reading and scribing. With Eureka 'discussing' nine Key Takeaways the reader gets a real gist of how you can be in the 5%. Yes, the minority, in this case, is where you want to be!

Important to not let the past dictate your future. Here's an interesting quote from KT #5 - "Many people never live the life of their dreams because they fail to have a sense of urgency. To put it another way, people often have the mindset that they can start on their path of change tomorrow, but, unfortunately, tomorrow never comes."

Eureka describes the original book as "a tremendously effective self-help book as it is successfully lights a fire within the reader and creates a strong feeling of confidence". Personally I found this to contain a lot of common sense but to others it might be revolutionary especially if you see yourself stuck in that 95%. Book provided in exchange for an honest review. Thanks, Liz

This changes things

By Ryan J. Dejonghe

For some reason, I haven't heard of this book before. However, I'm a fan of checking out book summaries to see what's popular and to see what I would like. *THE MIRACLE MORNING* seems like a book that will definitely change me!

Eureka does an EXCELLENT job of covering the main topics of this book, both in summary and in key takeaways. What really impresses me is how they offer the six things covered by the author in his book. These things include exercising, meditating/praying, positive affirmations, reading, etc. I feel confident in Eureka's summary of the book that I can already apply these things in my own life. Not only apply them, but know the purpose of each.

If you've already read the book or just want to get the benefits of the book without paying full price, Eureka does an excellent job with this summary.
