# TREASURE PLANET: A VOYAGE OF DISCOVERY BY JEFF KURTTI, JODY REVENSON PDF

Go "behind the sails" on an intergalactic treasure hunt in this thrilling new animated space adventure by Walt Disney Pictures. A futuristic twist on one of the greatest adventure stories ever told, Treasure Planet follows Jim Hawkins's fantastic journey across a parallel universe aboard a glittering space galleon. Bug great dangers lie ahead when Jim discovers that his trusted mentor, the cyborg cook John Silver, is actually a scheming pirate with mutiny on his mind. Legends of pirate treasure and pirate terror, the lore of literary pirates, and a look at the loot of a thousand worlds are all featured in this richly illustrated volume that will be treasured by buccaneers of all ages. Discover the film's evolution and the development of its characters, weaponry, and technology, as well as exploring the interesting histories of actual pirates who sailed the seven seas. Part techno-log, part field guide, this book is brimming with diagrams, gadgets, and gizmos, fun facts, and fascinating anecdotes.

Expands on general story but not much else

By Erika

They expanded A LOT on the general canon of the universe (goes into detail how the universe is the way it is in the movie) but it is extremely lacking in expanding on character biographies and pasts. It's also disappointing that this book is so short; for a project that Disney had in development for many years, they could have greatly expanded on this book; I know they have they information!

In closing, If you are a die hard fan of Treasure Planet, this book is a must and is a holy grail in the fandom. The pictures they do have are gorgeous and they do explain Jim's mindset pretty well (but it's not something a die hard fan wouldn't already know) and it's nice to have a piece of Treasure Planet.

If you are a general fan, of animation or Disney then steer clear! Animation fans will find the lack of explanation on the blending of the 2d and 3d mediums disheartening and Disney fans tend to forget this

movie exists so I doubt you'll care much for this.

AN UNDERRATED MOVIE, AN UNSUNG CLASSIC

By Gotham Girl18

I bought this book because I wanted to see some of the artwork that was part of a movie that my teacher from Art Center worked on. Yes, I must confess, I have never seen the movie, but bought it because I love collecting books on art and animation.

I have to agree with a previous review that pointed out that this book should have come out in hardcover format. It is too bad that Disney ignored it, and cut out on advertising, because the artwork is truly a treat. Nonetheless, I'm glad to include this book in my collection; it's more than worth its retail price!

Nice book, could use more art.

By William Perry

Strange to headline it that way, but even though it's an art book, it's still too brief. If anything, it needs to be a larger format with more of the concept paintings and development of the ship models as well. I do like the movie and wished it had been a bit longer too.
