Outstanding financial management & wealth building book by the experts

By American Samurai-Soldier

Wonderful book. Every page is worth reading, particularly the last two chapters regarding how to avoid catastrophic frivolous law suits, how to handle your stock market investment strategies from your mid 20's,

30's all the way to your 70's and 80's age ranges regarding long term investments and short term investments.

Mr. Trump & his co-authors are brilliant and remarkably accomplished business professionals over many years, and taking your time to read what good inside information they have can only drastically improve your own financial situation if you are like myself interested in business, investments, and the really attempting to gain positive success in the difficult and complex financial field.

I give this book, like his "Commercial Real Estate" & "Real Estate" Trump University books an A+ for quality, content, and professionalism.

Mr. Trump is the real deal, and don't believe the continuous hate mongering distorted political lies told about him, especially his problems with "Trump University" because as far as I can state from my own independent observation these books are solid and are real treasures.

Highly recommend

By Amazon Customer

This book along with "Rich Dad Poor Dad" are must reads for any individual who wants a better life for themselves and their family. As the title implies "Wealth Building 101" is a beginning foundation and perfect for anyone who possesses the entrepreneurial spirit and find themselves stuck in a job they don't want to be in.

It focuses on getting yourself out of debt and then using other skills to get ahead.

I highly recommend this book.

Read and enjoy!

By TaxDeedPro com

Love Trump, great book... even if he didn't write it. Trump rarely writes his own books but the people he surrounds himself with are just as brilliant and has great insite.
