Wow-so not what I expected. Not a how to book. This book talks about colors as energy. As a beginning watercolor painter I wanted some steps to follow or color theory. This book supplied neither.

Having been a Waldorf parent for three daughters, I was eager to bring the Lazure method of painting to my three year old grandson. I read the book on the plane to visit him, and had pre-ordered all the supplies. The book was clear, and instructive, as well as including the wisdom and perspective I have counted on in Waldorf education. We had a wonderful time, and a very different time from his usual painting experiences, much slower, and calmer as we painted side by side, and met the colors. I look forward to years of this kind of sweet sharing with my two grandsons.
